After the regular business meeting Mrs. Daniel Brown took charge of the program. The subject for study was "Shantung." Mrs. Henry Mueller who had charge of the current events, sent two articles on the terrible famine now raging in China in which twenty-five millions are starving. Mrs. Brown read a general survey of China, which has stood still for 4,000 years because of ancestor worship and because China has always stayed at home and because no man or idea could penetrate their kingdom. This old order is changing, foreigners can now go through China. The western trained Chinese troops are bringing back new ideas from their reconstruction work in France. Since the Republic form of government has been established many of the old customs have been abandoned and women are being recognized. Mrs. Brown then told some interesting things about Shantung particularly celebrated as the birth place of Confucius and where 16,000 persons a day have gone to worship at the many temples. But the religions of Shantung today are divided between Christ and Confucius.

Mrs. Meyer then read of the different American demands such as malaria, ponce and lace which are giving am-

PROMISING PROSPECTS FOR AUTOS

(Continued from page one)

"We are having trouble in getting cars right now and I am looking for a worse shortage than existed in 1919," says E. L. Shaver of the South Shore Auto company. "Money is plentiful here, but the stringency in the rural districts is being reflected in the city where they are sleeping carfully. It means that new cars will be scarce and used ones will be in demand."

Jeddy O'Neill, the Calumet avenue dealer found 1920 his best year. "Things are a little slow now," he says, "but that is to be expected because of conditions. You can't sell on a declining market no matter what line you are in. People have the idea that prices are going to be slashed and they are waiting. There is plenty of money and I know I'm going to have the best year ever in 1921."

The Lake County Auto Supply company has a good line of prospects for 1921, according to H. A. Tittel, its president, who says the results of the year just ending and thinks even better things are in store for his house. After the recent shakeup he believes the tire market has about settled to where it will stick for the next 12 months.

"Business with us is good and we look for still better," is the pointed way in which W. E. Stromberger of the Jackson Auto Sales company sums up the situation.

Probably the only plant which is running up to capacity and increasing is the Ford Motor company. There is no letup in Hammond's Ford demand. "We are sending out from three to five cars every day," said T. A. Derris of the E. N. Bunnell Motor company. "Last week was a good one. You would be surprised at the number of people who come in here and pick down their cash for cars. We make few trades. Our car has of course become a business necessity and is no longer considered the poor man's machine only. If this weather keeps up we will continue to make heavy sales. With bad weather we will fare equally well for our accessory line will boom."

"The Ford plant is turning them out at the rate of 4,800 a day or a car every 15 1/2 seconds and we have little trouble in getting the machines we want," Mr. Derris ran through a stack of sales sheets as he spoke of the cash business. "There are 4 sales which we made last month and 4 of them or over 85 per cent were for cash. Inquiries show that 1921 will be a hummer with us."

William Merritt believes 1921 will be characterized by his business generally. He looks for industry to be awakening well by February and is planning his campaign to a fight on the job a jump ahead of the game.

Treat 'Em Rough Tactics in Six-Day Bike Grind

NEW YORK, Dec. 8.—Thirteen teams of cyclists dashing around the course last night at Madison Square Garden pulled the "treat 'em rough" stuff when they pleased the toughest citizen present. When Maurice Brocco didn't dodge the issue, right after the finish of the fifth sprint a rival came along and bumped him so neatly that he went the popular hero sliding down the track. Brocco and Coburn are leading by a score of 217 points. Egg and Walker, though a lap behind Brocco and Percy, are second with 139 points. The latter are third with 113, but have the satisfaction of knowing that every time they call a heat over they are sure of five points without riding hard for the numerals.
